Important Facts Regarding Sysco Group Benefits
(Medical, Dental, Vision, EAP, Life, AD&D, Healthcare and Dependent Day Care Flexible Spending Accounts and Long-Term Disability)

Eligibility for the Group Benefit Plan for newly hired associates: When you join Sysco, your eligibility date for group benefits is the first day of the month coincident with or next following two full continuous calendar months of employment. For example, if you are hired on January 1, your benefits will be effective on March 1; if you are hired from January 2 – 31, your benefits will be effective on April 1. This equates to a waiting period of approximately 60 to 90 days.

Pre-existing condition exclusion: Sysco's PPO and Traditional healthcare programs contain a 12-month pre-existing condition exclusion. A pre-existing condition is defined as a condition that entailed medical advice, diagnosis, care or treatment prior to your enrollment date. You can lessen or eliminate the exclusion period with proof of prior healthcare coverage. Pregnancy is not considered a pre-existing condition.

Federal law requires that benefit choices you make when you enroll stay in effect throughout the year **UNLESS** you experience a qualified change in status during the year, which permits you to change your elections. In that event, you have 31 days including the date of a qualified change in status to change your benefits coverage.

Examples of a qualified change in status include:

- Marriage or divorce
- Death of spouse or dependent
- Birth or adoption of a child
- Change in dependent status
- Change in your or your spouse's employment status
- Loss of coverage

You must make changes to your benefits, including enrolling eligible dependents for coverage, within 31 days of a qualifying event by completing the required paperwork and submitting it to your local benefits department. For example, your newborn child must be enrolled within 31 days including the date of birth in order to be covered. Even if you have family coverage, you must still add new dependents to your coverage. Calling the coverage provider is not considered enrollment.
